CURRENT ACADEMIC INTEGRITY POLICY:

Violations include: cheating, fabrication, plagiarism, denying others access to information or material, and facilitating violations of academic integrity.

The Camden Plagiarism Tutorial (INTERACTIVE): <u>http://library.camden.rutgers.edu/EducationalModules/Plagiarism/</u>

Cheating and Plagiarism

Short version: Don't cheat. Don't plagiarize.

Longer version: Cheating on tests or plagiarizing materials in your papers deprives you of the educational benefits of preparing these materials appropriately. It is personally dishonest to cheat on a test or to hand in a paper based on unacknowledged words or ideas that someone else originated. It is also unfair, since it gives you an undeserved advantage over your fellow students who are graded on the basis of their own work. In this class we will take cheating very seriously. All suspected cases of cheating and plagiarism will be automatically referred to the Office of Judicial Affairs, and we will recommend penalties appropriate to the gravity of the infraction. The university's policy on Academic Integrity is available at http://academicintegrity.rutgers.edu/academic-integrity-policy ¹ I strongly advise you to familiarize yourself with this document, both for this class and for your other classes and future work. To help protect you, and future students, from plagiarism, we require all papers to be submitted through Turnitin.com.

Since what counts as plagiarism is not always clear, I quote the definition given in Rutgers' policy:

Plagiarism: Plagiarism is the use of another person's words, ideas, or results without giving that person appropriate credit. To avoid plagiarism, every direct quotation must be identified by quotation marks or appropriate indentation and both direct quotation and paraphrasing must be cited properly according to the accepted format for the particular discipline or as required by the instructor in a course. Some common examples of plagiarism are:

- Copying word for word (i.e. quoting directly) from an oral, printed, or electronic source without proper attribution.
- Paraphrasing without proper attribution, i.e., presenting in one's own words another person's written words or ideas as if they were one's own.
- Submitting a purchased or downloaded term paper or other materials to satisfy a course requirement.
- Incorporating into one's work graphs, drawings, photographs, diagrams, tables, spreadsheets, computer programs, or other nontextual material from other sources without proper attribution.²

DEPARTMENTAL LEARNING GOALS MET BY THE COURSE:

SAS departmental learning goals are compiled at <u>http://sasoue.rutgers.edu/assessment/sas-department-and-program-assessment</u>

1. Content in Psychology

Students should know the terms, concepts, theoretical perspectives, empirical findings, and historical trends in psychology.

3. Higher-Order Cognitive Skills

Students should be able to use critical thinking, skeptical inquiry, and, when possible, the scientific approach to ask, answer and understand questions related to behavior and mental processes. These skills are tested in different ways in different courses, from conceptual questions on standard tests to critiques of cases to presentation of research or programs or cases.

TEACHING PHILOSOPHY:

My bias is to explore content areas in depth, as opposed to giving superficial coverage to many areas. If time becomes a limiting factor, changes in the schedule will reflect that bias. Thus, topic areas and readings may be dropped or added, depending upon time constraints. I believe education is a cooperative enterprise in which you have an active role. Therefore, I want to encourage an active participation on your part during the course. Please don't hesitate to respond, question, and challenge. To facilitate this process, I will occasionally ask you to take part in experiential exercises or discussion groups. I hope these experiences will allow you to apply the material we cover to your own lives.

ATTENDANCE POLICY:

Legitimate reasons for absence include, but are not limited to, death in the immediate family, religious observance, academic field trips, participation in an approved concert or athletic event, direct participation in university disciplinary hearings, and jury duty.

Nevertheless, the student bears the responsibility for fulfilling all course expectations in a timely and responsible manner. If you miss an exam or are absent from class, please go to the Deans Office http://deanofstudents.rutgers.edu/ and present your evidence of absence and bring the Dean's note to me.

Self-Reporting Absence Application: Students are expected to attend all classes; if you expect to miss one or two classes, please use the University absence reporting website <u>https://sims.rutgers.edu/ssra/</u> to indicate the date and reason for your absence. An email is automatically sent to me. University religious holiday policy is at <u>http://scheduling.rutgers.edu/religious.shtml</u>

CLASS PARTICIPATION:

The clicker system will allow for interactive class participation which is difficult in large classes. When a question is presented on the PowerPoint during lecture, you will answer and receive 1 point for each question answered, and 2 points for each question answered correctly. This will be out of 100 points (I will present about 190-200 points worth of questions, therefore I am accounting for missed days). I will give you an extra credit point for every 10 points received above 100 points.

The 2nd and 3rd lectures will count as practice. It is important that you purchase your clicker as soon as possible after the first class session. If I do not have a clicker ID from you by the 6th class, I will list your name on the PowerPoint at the beginning of lecture and will email/message you until I get one. Starting with the 4th lecture of the semester, responses will count toward your grade. There will be, on average, 5-10 questions per class.

Make sure to any address clicker issues within a week after the class in question. It is your responsibility to make sure your clicker points show up on Sakai within a week of each class period. Please do not contact me with clicker concerns more than a week old.

Please register your clicker on the **Sakai site** (tab iclicker), not the iclicker website. ASSESSMENTS: There will be a midterm and a final. You will need a #2 pencil for the in-class exams. Test dates noted on the course outline may be changed if needed; changes will be announced in class and on Sakai. *If for some reason class is cancelled on a scheduled test day, the exam will be given during the next regular class period. Students caught cheating on any exam will get an F for the entire course.*

The midterm will consist of 50 multiple choice items (75 for the final)

There will be 6 quizzes which will consist of 15 questions each. You will have 1 hour to complete each quiz and will only have one chance to take the assessment.

FILM ANALYSES:

You will be required to complete two film analyses (50 points each) Only submit in Word or pdf format If I cannot open your assignment, you will receive a zero.

Due dates can be found under the "assignments" tab

The film analyses will involve viewing and critically analyzing a movie that we will discuss in class. Choose at least one phenomenon from a topic we discussed in class.

Please use subtitles to divide the following sections of your paper.

- 1) Briefly describe the relevant scene (1/2 page) 10 pts
- Describe the psychological principle that is relevant from the assigned reading(s)/ PowerPoint (1/2 page) 10 pts
- 3) Elaborate on how the selected scene conforms and/or fails to conform to the psychological principle you have identified using the assigned readings as your guide. This section will reference the assigned readings/PowerPoint and specific content of the film. (1 page) **15pts**
- 4) Your discussion will conclude with a brief, critical assessment of the strengths and weakness of the movie's portrayal of the particular concept covered based on the readings/PowerPoint. You should take note of any inaccuracies, omissions, or creative liberties in the portrayal. (1 page) **10pts**
- 5) In-text citations and a reference page 5pts

Be sure to include references to the readings/PowerPoints. You must include in-text citations and a reference page.

Find film clips that address each of Erikson's 8 stages. Write a 3 page, double spaced paper that describes how these film segments relate to each stage. Remember to include in-text citations and a reference page. You can either send links for the film clips or upload them to Sakai.

Option 2: Debunking Myths (4 points) Due Thurs. 4/20 11:59pm

You may find 2 ads in any popular media (web, magazine, etc.) that use claims from psychology to sell a product or service and write a 3 page, double spaced paper explaining the scientific evidence for AND against the claims.

Option 3: Film Analyses (total 15 points) Due Thurs. 4/20 11:59pm

There are 3 movies available that we will not be discussing in depth this semester: Crash, The Conjuring and Sybil. I will drop the lowest of the three midterms (the final is mandatory). You will need a #2 pencil for the in-class exams. Test dates noted on the course outline may be changed if needed; changes will be announced in class and on Sakai. *If for some reason class is cancelled on a scheduled test day, the exam will be given during the next regular class period.
