

## **Full-Time Research Study Assistant Position at the Rutgers Cancer Institute of New Jersey**

**We have a full time research assistant position on an NCI-funded study evaluating a social media interventions for young onset melanoma patients and their families. The study assistant would be responsible for screening, recruiting and consenting patients and their families, linking participants with the surveys, and linking participants into the Facebook Groups. The study assistant would also be responsible for assisting with creating Facebook postings and formatting these postings for Facebook delivery. This study will require great deal of patient and family phone contact, and thus it is an ideal position for someone who desires contact with cancer patients and their family members. The position will require working two evenings to contact participants who are on the West Coast. Bachelor's Degree in a relevant social science or related field (e.g. psychology, social work, public health or social science with One (1) year of qualitative behavioral research experience preferred. If you are interested in this position, please apply online via the link below or email [Sharon.Manne@rutgers.edu](mailto:Sharon.Manne@rutgers.edu).**
