

Grad program: The Department of Psychology at the University of Alabama at Birmingham (UAB) is currently recruiting applicants to three graduate programs (Behavioral Neuroscience, Lifespan Development, and Medical/Clinical Psychology). Students admitted to these programs are offered 5 years of funding that covers their stipend, tuition, and other fees.

Doctoral Programs:

- **Behavioral Neuroscience:** prepares students for leadership in teaching, industry, and independent translational research careers focused on the neurobiology of behavior.
- **Lifespan Developmental Psychology:** trains scientists to conduct research to discover and apply basic principles of developmental psychology in an interdisciplinary context and to apply those principles to a variety of problems.
- **Medical/Clinical Psychology:** prepares students to become leaders in research and clinical care in the areas of behavioral, mental, and physical health promotion, disease prevention, risk reduction, and symptom assessment and amelioration in interdisciplinary and medical settings.

We invite you to learn more about our department, our programs, our research, and our faculty (<https://www.uab.edu/cas/psychology>). Questions? Contact the **Graduate Programs Manager** (trobe@uab.edu).

Grad program: MS in Applied Psychology program at USC (see attachment “MAPP” for details)
