 - 3) To understand how the science of psychology is applied to the various domains of human behavior (e.g., mental health, education, parenting, organizational functioning, etc.).
 - 4) To situate psychology within the intellectual framework of contemporary thought, to review its historical evolution, and to gain familiarity with its current sub-disciplines.

You get to the site by entering the URL <https://sakai.rutgers.edu>, and logging in with your Rutgers netid. The course should appear (as a tab near the top of the page) if you are on the roster - you just click on the tab for it and you are in. If you have many tabs (because you're a member of many Sakai sites) you may have to use the 'drop down' box to see them all. Once you are in the site, click on 'Resources' to access the lecture slides (under the "Lecture Slides" folder. Lecture slides will be in MS PowerPoint format, so you need to use a computer that has PowerPoint on its hard drive in order to open or download them. All of the PCs in the labs on any RU campus are so equipped.
