Course description:

This course surveys the major areas of psychology: the nature of psychology as a science, principles of learning, the brain and behavior, sensation and perception, cognitive processes, motivation and emotion, personality and development, stress and health, adjustment and behavior disorders, and social behavior.

Course objectives:

The objectives of this course are to develop a basic understanding of the significant theories, concepts, and issues in the field of psychology; apply theoretical concepts in psychology to everyday situations in order to help you better understand yourself and the world around you, and develop an understanding of the scientific method in psychological research. Upon completion of this course, students should be prepared for more advanced courses in Psychology.

Learning goals:

This course has been certified as satisfying the Social Analysis (SCL) Learning Outcome Goal of the SAS Core Curriculum.

Specifically, students will be able to:

- a) Explain and be able to assess the relationship among assumptions, method, evidence, arguments, and theory in social and historical analysis (subgoal i);

and

*Note: This syllabus is subject to change if adjustments become necessary during the semester.

b) Apply concepts about human and social behavior to particular questions or situations (subgoal n).

This course also satisfies the following Psychology Department Learning Goals:

- Students will know the leading terms, concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
- Students will apply psychological concepts and content to become engaged citizens.
- Students will use critical thinking, skeptical inquiry, and, when possible, the scientific approach to ask, answer and understand questions related to behavior and mental processes.

Required text and equipment:

Textbook:

Publisher: Hawkes Learning

Website: <http://learn.hawkeslearning.com>

The Hawkes Learning software is a required component of this course. You will use Hawkes to complete and submit your homework, which accounts for 15% of your grade. Textbook bundles that include the software are available in the bookstore. An Access Code registered in your name is required to use the software. Do not purchase your materials from an online vendor or another student. These Access Codes may be already registered to another student, making them unusable.

How to use Hawkes:

Each lesson of the software offers three modes:

1. **Learn** is an interactive presentation of the material found in your textbook and includes instructional video clips and example problems.
2. **Practice** gives you access to unlimited practice problems, provides error-specific feedback for commonly made mistakes, hints for all incorrect answers, and includes an interactive Tutor with Step by-Step guidance and fully worked out solutions. Note that every question type from Certify can be found in the Practice mode.
3. **Certify** is the homework portion of the lesson. After answering the set of questions without exceeding the available strikes (or lives), you will receive a perfect 100% score for your homework. Levels of mastery will range from about 83-95% and will be required to complete Certify. *If you are not able to Certify in your attempt, you are able to start a new set of questions over again with no penalty.* In the meantime, you may wish to spend more time in the Practice mode before attempting Certify again. You have unlimited attempts in each lesson to receive full credit before the due date.

Instructional videos can be found at www.hawkestv.com.

Getting help:

Contact Hawkes with any technical questions, including creating your username and password, finding your Access Code or license number, or completing your work.

Phone support is available Monday-Friday, from 8:00am-10:00pm ET. Chat support is available 24/7.

Other requirements: regular and reliable access to a computer with Internet, #2 pencil for all exams.

General course requirements:

1. **Canvas.** It is expected that all students will regularly access Canvas for course announcements and materials. Please also ensure that you check your Rutgers email regularly.

*Note: This syllabus is subject to change if adjustments become necessary during the semester.

2. **Attendance:** Attending class is essential to the learning process. Regular class attendance is expected. Further, some exam questions will be drawn from material presented in the lecture that is not repeated in the textbook; thus, it is in your best interest to attend all classes. ***If you miss a class, you are responsible for obtaining the missed information from a classmate*** (my lecture notes will not be provided to students).
3. **Homework assignments:** Homework assignments (in the form of quizzes) are given using the Hawkes platform. The assignments due dates are listed in the Course Schedule.
4. **Exams:** Three midterm exams and one final exam will be given. Each exam will be based on material presented both in lecture and in the assigned readings. The final exam will be cumulative, with an emphasis on a more basic understanding of the material from the first 3/4 of the course and more specific understanding of the material from the last 1/4 of the course. All exams will be multiple-choice. You must provide your 9-digit RUID number on all exams, and IDs may be checked at exams; you should carry your ID card with you at all times.
5. **Research Participation:** Since experimentation is a prime source of information for the field of psychology, contact with experimental procedures is required in this course and may be fulfilled through one of the following two options. Non-fulfillment of this requirement will result in a deduction from your final course grade total equal to one-half standard deviation of the class distribution of total points. This could lower your final grade a full letter grade (i.e., A to B, B to C, etc.).

Option 1: This method requires you to participate in several experiments for a total of 3-1/2 hours, equaling **seven** Research Participation Units (RPUs). Each experiment will provide a specific number of RPUs, allocated in half-hour units, which will be indicated in the experiment's description. You may choose to participate in any number of experiments, provided that you obtain a total of seven RPUs. The last day for participation is one week prior to the last day of classes (Dec. 3) (there may be some exceptions). Note that 1 RPU will be given in exchange for each ½ hour of participation, except in the case of on-line studies that do not require students to come to a lab. **On-line** studies will award ½ RPU per ½ hour of on-line study participation. Moreover, students are not allowed to receive more than **2 RPUs** by engaging in on-line studies (i.e., two hours maximum).

You will need to register yourself by going to the main Human Subject Pool System page (<https://rutgers-researchpool.sona-systems.com/Default.aspx?ReturnUrl=%2f>) and clicking on "**Request an Account**". Make sure that you carefully enter your correct email address and select the correct course, instructor, and days/period for which you are registered. If you don't specify this information correctly, there may be subsequent problems with getting your RPUs assigned to you.

Option 2: Students who are unwilling or unable to participate as subjects in experiments (Option 1) may fulfill this requirement by submitting summaries of two published research articles (details can be found here: <https://psych.rutgers.edu/academics/undergraduate/general-psych-requirement/189-human-research-student-requirements>). Please follow the instructions carefully. Please be sure that your papers contain no plagiarism; all papers will be submitted to Turnitin.com.

The first summary must be submitted to your instructor (via Canvas) by **Oct. 15**. Students who miss that deadline must fulfill the requirement via Method 1.

The second summary is due on or before **Dec. 3**.

More information about both options is located here: <https://psych.rutgers.edu/academics/undergraduate/general-psych-requirement/189-human-research-student-requirements>. **Please read these rules carefully before beginning either your research participation or your papers.**

Grading:

Course grades will be based on the following:

Exam 1:	18%
Exam 2:	18%
Exam 3:	19%
Final exam:	30%

*Note: This syllabus is subject to change if adjustments become necessary during the semester.

Homework assignments: 15%

TOTAL 100%

(Non-completion of research participation requirement: ~7% deduction)

Final grades will be determined by the following (standard Rutgers grading scale):

90.00 % and above	A
85.00-89.99%	B+
80.00-84.99%	B
75.00-79.99%	C+
70.00-74.99%	C
60.00-69.99%	D
below 60.00%	F

Note: A grade of C or better is required as a prerequisite to either the major or minor in psychology.

Make-up/late policy:

No make-up exams will be given unless arrangements are made prior to the day of the exam due date or written proof of unavoidable absence is provided (e.g., doctor's note). Make-up exams may be different from the original exams. If exceptional last-minute circumstances (e.g., car accident) prevent you from taking an exam, it is important that you contact me within 24 hours. In some circumstances without a documented but still valid reason for your absence on an exam day, you may take a make-up exam with a 10-90% deduction in points (at my discretion). Missed exams will otherwise be given score of 0.

Homework assignments will be accepted up to 5 days after the due date with a penalty of 10% per day late. Homework assignments will not be accepted more than 5 days after the due date.

Academic integrity:

Rutgers University does not tolerate academic dishonesty, which includes, but is not limited to, cheating, fabrication, plagiarism, denying others access to information or material, and facilitating violations of academic integrity. Any suspected cases of academic dishonesty will be referred to the Office of Student Conduct (see <http://academicintegrity.rutgers.edu/academic-integrity-policy/> for more information on Rutgers University's policies regarding academic dishonesty).

Disability services:

The Office of Disability Services works with students with a documented disability to determine the eligibility of reasonable accommodations, facilitates and coordinates those accommodations when applicable, and lastly engages with the Rutgers community at large to provide and connect students to appropriate resources (e-mail: <https://ods.rutgers.edu/>, phone: (848) 445-6800). Students with disabilities requesting accommodations must follow the procedures outlined at <https://ods.rutgers.edu/students/applying-for-services>. Please give your letter of accommodation to me as soon as possible, and we will coordinate the accommodations privately.

Final exam:

Our final exam will be held at the time scheduled by the University (<http://finalexams.rutgers.edu/>). University regulations set the time and date of all final examinations and specific guidelines that define conflicts (<http://sasundergrad.rutgers.edu/forms/final-exam-conflict>). If you have a legitimate medical excuse for missing the exam, you will receive a TF in the course until the make-up exam has been completed.

Student-wellness services:

Just In Case Web App: <http://www.justincaseforcolleges.com/>

Access helpful mental health information and resources for yourself or a friend in a mental health crisis on your smartphone or tablet and easily contact CAPS or RUPD.

General policies:

Please be mindful of your fellow students by avoiding behavior that interferes with classroom activities or with other students' ability to focus such as texting, surfing the Internet, using social media, playing computer games, having cell phones ringing, entering the class late, or leaving the class prematurely (if it is necessary that you arrive late or leave early, please sit in the back to minimize disruption). A student responsible for continual disruptive behavior may be required to leave class pending discussion and resolution of the problem.

Exam and homework scores will be posted on Canvas; it is your responsibility to contact me immediately if you believe you have not received credit for a submitted exam or assignment.

Final grades are unalterable except in the case of a true clerical error. Although students may sometimes desire a different grade to get into graduate school, avoid academic probation, maintain financial aid, or for other reasons, changing any student's grade would be unfair to the other students. Therefore, I will not entertain any requests for grade changes or opportunities for additional assignments.

You may not post any class materials such as lecture slides or practice questions to any web site. You may not record lectures without my express consent.
