Course Description and Objectives

Advanced analysis and critical investigation of psychological themes in modern cinema including depiction of lifespan development, personality, memory, learning processes, personality disorders, trauma, autism, and clinical practice.

NOTE: Some of the movies you will be required to view may contain instances of violence, sexual content, trauma and/or foul language as would be consistent with an R rating. If this is offensive, or if you are otherwise unable to view such movies, please discuss this with me.

- You will enjoy really great films
- You will develop an understanding of basic psychological principles across the major fields of psychology
- You will be able to define and apply key psychological concepts, terms, and theories.
- You will develop critical thinking and analysis skills by evaluating the accuracy of the portrayal of psychological concepts in film.

Instructional Resources

1) There is no required textbook. You will watch movies across the semester and read assigned material. PowerPoint slides and readings will be available on Sakai.

Main Sakai portal <https://sakai.rutgers.edu/portal>

2) . iclicker (or iclicker2 or iclicker+)

ISBN-10: 1464120153

ISBN-13: 9781464120152

TEACHING PHILOSOPHY:

My bias is to explore content areas in depth, as opposed to giving superficial coverage to many areas. If time becomes a limiting factor, changes in the schedule will reflect that bias. Thus, topic areas and readings may be dropped or added, depending upon time constraints. I believe education is a cooperative enterprise in which you have an active role. Therefore, I want to encourage an active participation on your part during the course. Please don't hesitate to respond, question, and challenge. To facilitate this process, I will occasionally ask you to take part in experiential exercises or discussion groups. I hope these experiences will allow you to apply the material we cover to your own lives.

INSTRUCTIONAL METHODS:

During our scheduled class meetings you can expect to explore great films and relate them to psychological material. I will encourage class participation because I want to hear what YOU think!

Do not leave lecture early: Besides distracting your fellow students, when I hear people leaving or packing their bag, I become very distracted. I lose my train of thought and will have to stop the lecture until the noise ceases. P.S.: I understand that occasionally people must miss part of a class. **If you intend to do so, please sit in the back** so you won't distract everyone

CLASS PARTICIPATION

Register your clicker on your Sakai Workbook page-the tab can be found on the left menu.

The clicker system will allow for interactive class participation which is difficult in large classes. When a question is presented on the PowerPoint during lecture, you will answer and receive 1 point for each question answered, and 2 points for each question answered correctly. This will be out of 100 points (I will present about 200-220 points worth of questions, therefore I am accounting for missed days). I will give you an extra credit point for every 10 points received above 100 points.

The 2nd and 3rd lectures will count as practice. It is important that you purchase your clicker as soon as possible after the first class session. If I do not have a clicker ID from you by the 6th class, I will list your name on the PowerPoint at the beginning of lecture and will email/message you until I get one. Starting with the 4th lecture of the semester, responses will count toward your grade. There will be, on average, 5-10 questions per class.

Please register your clicker on Your **Sakai workplace page** (tab iclicker), not the iclicker website.

ATTENDANCE POLICY:

You do not need to bring me a note if you miss 6 or less classes as there are more than enough chances to get clicker points even with missing 5-6 classes. If you have an extended absence for more than 6 class periods, please talk with me.

Legitimate reasons for absence include, but are not limited to, death in the immediate family, religious observance, academic field trips, participation in an approved concert or athletic event, direct participation in university disciplinary hearings, and jury duty.

Nevertheless, the student bears the responsibility for fulfilling all course expectations in a timely and responsible manner. If you miss an exam or are absent from more than 6 classes, please go to the Deans Office <http://deanofstudents.rutgers.edu/> and present your evidence of absence and bring the Dean's note

University religious holiday policy is at <http://scheduling.rutgers.edu/religious.shtml>

ACADEMIC INTEGRITY:

<http://academicintegrity.rutgers.edu/academic-integrity-policy/> Violations include: cheating, fabrication, plagiarism, denying others access to information or material, and facilitating violations of academic integrity.

ASSESSMENTS

There will be 7 quizzes which will consist of 20 questions each. You will have 1 hour to complete each quiz and will only have one chance to take the assessment. **Please make sure not to miss the closing date as I will not be able to open the quiz once it has closed.**

I will drop the lowest score quiz,

There will be three midterms (the best two of these will be averaged into your grade-one will be online) and one cumulative final exam. I will drop the lowest of the three midterms (the final is mandatory). You will need a #2 pencil for the in-class exams. Test dates noted on the course outline may be changed if needed; changes will be announced in class and on Sakai. *If for some reason class is cancelled on a scheduled test day, the exam will be given during the next regular class period. **Students caught cheating on any exam will get an F for the entire course.***

Each midterm will consist of 50 multiple choice items (75 for the final)

ACCOMMODATIONS

Appropriate accommodations will be made for students with disabilities. Full disability policies and procedures are at <http://disabilityservices.rutgers.edu/>
Students with disabilities requesting accommodations must follow the procedures outlined at <http://disabilityservices.rutgers.edu/request.html>

Film Analyses

If I cannot open your assignment, you will receive a 0.

You will be required to complete two film analyses (40 points each)-one by March 8th and one after March 8th

Only submit in Word or pdf format

Due dates can be found under the “assignments” tab.

The film analyses will involve viewing and critically analyzing a movie that we will discuss in class. Choose at least one phenomenon from a topic we discussed in class. The paper should be 2-3 double spaced pages in 12 pt font, double spaced.

The assigned reading for the movie should be included in your analysis. The readings can be found in the lecture folder and the reference on the syllabus.

Please label the following sections

- 1) Describe the psychological principle(s) illustrated in the film from the reading and PowerPoint 10pts
- 2) Describe the relevant scenes which illustrate the psychological principle(s) 10pts
- 3) Elaborate on how the selected scene conforms and/or fails to conform to the psychological principle you have identified. Your discussion will conclude with a brief, critical assessment of the strengths and weakness of the movie’s portrayal of the particular concept covered based on the readings/PowerPoint 15pts
- 4) In-text citations and a reference page 5pts

Be sure to include references to the assigned reading for the movie PowerPoint. You should include in-text citations and a reference page.

Cheating and Plagiarism

Short version: Don’t cheat. Don’t plagiarize.

Longer version: Cheating on tests or plagiarizing materials in your papers deprives you of the educational benefits of preparing these materials appropriately. It is personally dishonest to cheat on a test or to hand in a paper based on unacknowledged words or ideas that someone else originated. It is also unfair, since it gives you an undeserved advantage over your fellow students who are graded on the basis of their own work. In this class we will take cheating very seriously. All suspected cases of cheating and plagiarism will be automatically referred to the Office of Judicial Affairs, and we will recommend penalties appropriate to the gravity of the infraction. The university's policy on Academic Integrity is available at

<http://academicintegrity.rutgers.edu/academic-integrity-policy>¹ I strongly advise you to familiarize yourself with this document, both for this class and for your other classes and future work. To help protect you, and future students, from plagiarism, we require all papers to be submitted through Turnitin.com.

Since what counts as plagiarism is not always clear, I quote the definition given in Rutgers' policy:

Plagiarism: Plagiarism is the use of another person's words, ideas, or results without giving that person appropriate credit. To avoid plagiarism, every direct quotation must be identified by quotation marks or appropriate indentation and both direct quotation and paraphrasing must be cited properly according to the accepted format for the particular discipline or as required by the instructor in a course. Some common examples of plagiarism are:

- Copying word for word (i.e. quoting directly) from an oral, printed, or electronic source without proper attribution.
- Paraphrasing without proper attribution, i.e., presenting in one's own words another person's written words or ideas as if they were one's own.
- Submitting a purchased or downloaded term paper or other materials to satisfy a course requirement.
- Incorporating into one's work graphs, drawings, photographs, diagrams, tables, spreadsheets, computer programs, or other nontextual material from other sources without proper attribution.²

ADDITIONAL CREDIT

For every 10 clicker points above 100, you will be given an extra credit point
You may only complete 2 extra credit assignments listed below

Option 1: Hand in the regular film analyses for 2 (max of 2) movies available on the site that we did not cover in class (American Sniper, Black Swan, Crash, Boys Don't Cry) (5 points for each analysis)

Due 4/19

Hand in 2 of the above movie analyses using the same format as the film analyses, no articles needed.

Option 2: Create your own video of a psychological concept (5 points) Due 4/19

Create and record your own scene which depicts a psychological concept. Include a description of the concept and how it is illustrated. Make sure the video is at least 2 minutes long.

Option 3: Crazy Ex-Girlfriend Analysis (5 points) Due 4/19

The first season of Crazy Ex-Girlfriend is available on reserve in Alexander Library. Write a 3-page, double spaced paper explaining any 5 psychological concepts illustrated in the series. **These concepts should be from 5 different lectures covered in the class.**

Extra Credit Movies

You can only attend 2 movies

During the semester I will be offering extra credit Twitter movie nights (5 points per movie). These will be held on selected afternoons/evenings- location will be announced in class. This is a program set up for students in the medical school and we have been invited to participate. To receive credit, you must sign out when you leave and tweet (at least twice) relevant information during the movie relating to theories of abnormality. The twitter account that you use must include your name as it appears on the roster and you must post at least twice with substantive information (original information-do not copy previous tweets) related to abnormal psychology. If you post inappropriate material, you will not receive credit, nor will you be able to participate in the future. **Please create a twitter account now as it takes a while for new accounts to become searchable and make sure the account is set to public.**

Inevitably every semester there are students who are not happy with their grades and seem to not be concerned until the day before the final. Please do not put yourself in that position and make sure that you keep up with the class throughout the semester. The following are some tips on how you should study for the exams,

If you want to learn the subject matter well, read the assigned material before the lecture, review the power points after the lecture, quickly go over it again a day or two later, and then re-read the notes and the chapter for a few days before the exam. Memory researchers have established that you will understand and remember something better by studying it several times spread out over days than by studying the same amount of time all at once. Also, of course, the more total time you spend studying, the better.

When you study, don't just read the lecture notes but stop and think about the material. The more actively you use the material, the better you will remember it. Also test yourself! Go through the lecture notes and write the name of the concept on the front and the definition on the back. Don't worry about memorizing the definition word for word as it would be better to try to use each word in a sentence or think of examples for each term.

HOW TO DO WELL IN THIS CLASS:

- Attend class and answer the clicker questions.
- Complete every quiz on time.
- Access the materials on Sakai
- At least a week before the exam, begin studying your notes from class. Get more information about concepts you do not understand by contacting me or working with your undergraduate TA.
- Use the study guides to explain the course concepts in your own words, draw models of the concepts;
- Contact me or your undergraduate TA to ask questions or just to talk about the material. I would be happy to look at your notes and study materials to see if I have any advice for you.
- Work productively during class. During class we will actively analyze, apply, and evaluate material.

EVALUATION

Evaluations are based on:

Quizzes	120 points (6 x 20)
