Texts

- Required readings will be distributed in class or on Sakai

Purpose

- The ability to understand, conduct, and write about empirical research is essential in many fields, particularly clinical and abnormal psychology
- This course is designed to help you develop the necessary knowledge and skills to engage in research:
 - Conducting a study in clinical psychology (e.g., ethical considerations, formulating hypotheses, choosing measures, collecting and analyzing data)
 - Disseminating findings (e.g. interpreting data and writing a research article)
- As a student in this course, you will be immersed in every step of the process and will come away with a solid foundation in how research works. A comprehensive research report in APA format is due at the end of the term
- The course is intended for undergraduate majors in psychology who have taken Quantitative Methods and Abnormal Psychology. It is designed to meet one lab course requirement of the psychology major
- Like any lab course, ***this class requires more than the average amount of work for you to earn a high grade***

Core Requirements

This course has been certified as satisfying four of the Writing and Communication Learning Outcome Goals (including WCR and WCD) of the SAS Core Curriculum. Specifically, students will be able to:

- Respond effectively to editorial feedback from peers, instructors, and/or supervisors through successive drafts and revision (WCR)
- Communicate effectively in modes appropriate to a discipline or area of inquiry (WCD)
- Evaluate and critically assess sources, and use the conventions of attribution and citation correctly
- Analyze and synthesize information and ideas from multiple sources to generate new insights

Office hours My office hours are by appointment. We can also meet before or after class if you schedule with me in advance. I welcome and encourage any student to contact me with any questions that cannot be answered in the syllabus.

Course website The Sakai website for the course has all of the lectures, writing resources, and announcements. **The syllabus will be posted online. If you have questions about the course this should be the first place you look for an answer.** It is also vital that you check your email and look at the announcements on the Sakai site. Important updates and tips will be posted through these means.

Computer Room (Room 101)

- No food or drink is allowed in the computer lab!
- **Back up your files every time we work in class (e.g. by emailing them to yourself or using a USB). Files saved to the lab computers may not be there the next week!**
 - Do NOT save things on the desktops!
 - Do NOT download anything non-class related!
- Use of the computers is a privilege, and inappropriate use of the computers may result in loss of that privilege. The computers are to be used for **class work only**, that means that you should not be using them during lecture

Students with disabilities Any student who needs accommodation for a physical or learning disability, please contact the Office of Disability Services (151 College Ave, Suite 123; phone 732-932-2848) and read more about Rutgers' policy at <http://disability/services.rutgers.edu>

- If you request accommodations for this course, you will need a letter from Disability Services. The Chair of Undergraduate Psychology and I will review your request and may choose to modify it before it is approved

Plagiarism

- All work that students turn in must be their own work
- Students *should not* work collaboratively on assignments without prior approval from the instructor
- Any outside sources must be appropriately referenced in all written work. Turning in someone else's work as your own is completely unacceptable
 - This includes downloading information from the web and pasting or copying it into your paper
 - This also includes rephrasing someone else's work and submitting it as your own
- I will be using Turnitin to check papers for using material without citing it
- **Any student who plagiarizes will, at the very least, receive a failing grade for the assignment.** More severe consequences (e.g., failing the class, expulsion) are also possible. More about academic integrity can be found at <http://ctaar.rutgers.edu/integrity/policy.html>

Attendance

- Attendance is worth 4 points total per class
- If you are not in class when it starts, you will lose 1 point (unless you contact me in advance). If you arrive more than 20 minutes late, you will lose another point
- If you must miss a class, **contact me before the start of class**. If you contact me before class, you can still get half credit (2 points), otherwise you will get 0
- If I see you on your phone or using the computer for non-class-related activities, you will lose points

Assignments

- All written assignments will be:
 - Typed in 12-point font (Times or Arial) with double spacing
 - Word or Pages documents (**NOT pdfs**), unless otherwise specified
 - Submitted online through Sakai
 - There are no page requirements for your assignments, so it will not benefit you to format your paper any other way
- All in-class assignments are due by midnight the day after class (11:59pm Wednesday).
- All homework assignments are due by the start of class (3:20 on Tuesdays)
- Assignments turned in late will automatically **lose 50%** of the possible points

Extra Credit

- Write a 1-page literature review on a clinical psychology research article for 4 extra credit points at any point during the semester (limited to 1 review)
 - You must send me the article you plan to write about beforehand, so that I can approve it
- If the entire class completes the SIRS course feedback survey, everyone will receive 4 extra credit points
- 4 extra credit points will be given for attending the last day of class

Disability Services

(848) 445-6800 / Lucy Stone Hall, Suite A145, Livingston Campus, 54 Joyce Kilmer Avenue, Piscataway, NJ 08854 / <https://ods.rutgers.edu/>

Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation:

<https://ods.rutgers.edu/students/documentation-guidelines>. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at:

<https://ods.rutgers.edu/students/registration-form>.
