Area of Experimental Experim	 The aim of this course is to acquaint students with scientific research within the context of learning psychology. Upon successful completion of this course, students will have a basic understanding of methods and techniques used in animal conditioning research understand the procedures for collecting data in animal conditioning research be able to use basic statistics and statistical software to analyze data be able to interpret the results of the statistical analyses produce an APA-style empirical paper.
	ertified as satisfying four of the Writing and Communication Learning Outcome Goals (including WCR and WCD) of the SAS Core , students will be able to:
b) Communicate effectic) Evaluate and criticall	o editorial feedback from peers, instructors, and/or supervisors through successive drafts and revision (WCR); vely in modes appropriate to a discipline or area of inquiry (WCD); y assess sources and use the conventions of attribution and citation correctly; ize information and ideas from multiple sources to generate new insights.

Attendance Policy and Late/Missed Work

Absence Reporting: Students are expected to attend all lab class meetings synchronously; if you expect to miss one or two classes, please use the University absence reporting website <u>https://sims.rutgers.edu/ssra/</u> to indicate the date and reason for your absence. An email is automatically sent to your TA.

In order to maximize your learning potential in a lab course, your "virtual" attendance each and every week is critical. Every class meeting builds up to the lab reports you will be writing throughout the semester, which will report on data that YOU collect in class. Data collection will be done within small groups that consist of your lab team/group members.

Participation Policy: Since your lab group works together to collect and organize the data for each experiment, participation matters and will play a role in determining your final <u>report grade</u>.

On data collection days, each lab group member will evaluate your effort working in the team on a scale of 0 to 5 (0 being no effort, 5 being ideal effort) in 3 categories: (1) Did you attend for the entire data collection period? (2) Did you communicate with the group for the entire data collection session?, and (3) Did you satisfactorily complete your assigned role in data collection? Completion of these peer group evaluations is a valuable tool in collaborative work and will be counted as part of your final grade.

Policy on missed labs: You must complete all work for the labs (data scoring) to earn full points for the lab reports. If you are absent on a data collection day, please contact me to make arrangements to make up the work. Failure to make up the work within 2 weeks will result in 50% reduction in lab report score.

Policy on late assignments: There will be a 10% point reduction for each day an assignment is late.

Policy for chronic absences: After 2 unexcused absences, I will contact the Dean of Students. If you have extenuating circumstances that prevent you from attending class, please get in touch with me as soon as possible.

Course Structure and Requirements

Assignment Point Values: Lab Report 1 (Experiment 1) Intro, Methods, Citations only –15 points

Lab Report 2 (Experiment 2) Results, Discussion, Citations only –15 points

Lab Report 3 (Experiment 3) Full lab report –30 points Peer Group Evaluation – 10 points Reading Quizzes – 15 points (5/each) Presentation – 10 points Peer Lab Report Review – 5 points

Explanation of Assignments:

-Lab Reports- You will submit 3 APA-style scientific lab reports (one per experiments 1,2, and 3) based on behavioral data observed in class. -Peer Group Evaluation – You will rate your Team Member(s) for effort extended in the group data collection exercises.

-Reading Quizzes – You will answer short questions for background reading to identify important factors regarding experimental hypothesis, experimental variables, results, and conclusion. All readings will be found on campus.

-In-class Presentation – After our first meeting, you will sign up for a week to present. You will be assigned a reading to present to the class from the assigned readings. This will be graded as follows: 8pt of the grade are for content and delivery (more information on rubric) and 2pt will be engaging in other students' presentations throughout the semester.

-Peer review- You will submit a draft of your final lab report to be reviewed by a classmate, and conduct a peer review for a classmate. To earn full points, you must both submit a draft and complete your review on time.

Grading Rubric Rutgers Letter Grade Scheme will be as follows:

A	100 % to 89.5%
B+	< 89.5 % to 84.5%
В	< 84.5% to 79.5%
C+	< 79.5 % to 74.5%
С	< 74.5 % to 69.5%
D	< 69.5 % to 59.5%
F	< 59.5 % to 0%

<u>Schedule</u> *Note that class meetings will not start until the 2nd week of Rutgers NB scheduled classes and is subject to change, at the TA's discretion.

Disability Services

(848) 445-6800 / Lucy Stone Hall, Suite A145, Livingston Campus, 54 Joyce Kilmer Avenue, Piscataway, NJ 08854 / https://ods.rutgers.edu/ Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: https://ods.rutgers.edu/students/documentation-guidelines. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at: https://ods.rutgers.edu/students/registration-form.
